DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. The ranges in claims 2-3 for CMPB are unclear. It appears to say that there is a peak from 7.27-8.16, which is quite impossible. Peaks are not that wide.
2. The term "dissolving" in claim 4 is surely wrong. One dissolves a solid in a solvent, but the material here is not a solid but a solution. Perhaps what applicants intend is "...adding ... to an ether solvent...".

Information Disclosure Statement

The "Taiwan Office Action" document was struck from the IDS as it is not a full citation (action for what?) and was not provided. Ref AL was struck because it was not a full copy of the patent.

Specification

Two abstracts were provided on the same date, but these are not identical. Applicants must decide which one they want; either is acceptable.
